Education

National Institute of Technology (NIT) Raipur — Raipur, CG
Bachelor of Technology in Information Technology — *July 2026 – May 2030 (Expected)*

Shri Shankaracharya Vidyalaya (CBSE) — Bhilai, CG
Class 12 Senior Secondary | 91.6% — *May 2026*

Shri Shankaracharya Vidyalaya (CBSE) — Bhilai, CG
Class 10 High School | 95.4% — *2024*

Experience & Leadership

Team Lead (Open Innovation Track) — Oct. 2026
CodeUtsava 10.0 Hackathon — *Raipur, CG*
- Led Team Runtime Terror during a 28-hour hackathon to build and deploy 'VacantDesk', a real-time campus room reservation platform
- Engineered the backend logic to calculate live room vacancy based on current time slots, capacity, and amenities

Technical Domain Member — Sep. 2026 – Present
NIT Raipur Foundation for Innovation & Entrepreneurship (NITRRFIE) — *Raipur, CG*
- Contribute to technical initiatives and software development projects within the campus incubator ecosystem

Class Representative (Section L) — Aug. 2026 – Present
NIT Raipur — *Raipur, CG*
- Act as the primary liaison between students and the Head of Department, coordinating academic communications and schedules

Projects

VacantDesk | *React, Node.js, Tailwind CSS, Firebase, Gemini API* — Oct. 2026
- Developed a live classroom vacancy tracker utilizing Firestore transaction locks to prevent double-booking (5-minute holds)
- Integrated Gemini API to automatically extract and structure schedules from timetable PDFs and images
- Implemented server-side role-based access control for students, class representatives, faculty, and HODs

AnimeXStream | *Python, MySQL, HTML/CSS, JavaScript* — 2023
- Built and maintain a full-stack live streaming platform supporting a user base of over 500 registered users
- Engineered a custom bulk email system to efficiently send platform updates and announcements to users
- Integrated live IPTV streaming sections alongside standard backend account storage and secure session logins

Railway Reservation System | *Python, MySQL* — 2025
- Engineered an IRCTC-inspired reservation system featuring secure login, custom CAPTCHA generation, and PNR tracking
- Implemented robust booking workflows including live train search, dynamic seat reservation, and ticket cancellations with refunds

Certifications

AI, ROBOTIX and Industry 4.0 for Innovation — Aug. 2026
ROBOTiX Club, NIT Raipur — *Raipur, CG*
- Completed a comprehensive five-day online workshop mastering concepts in artificial intelligence, robotics, and Industry 4.0
- Gained hands-on practical experience utilizing ROS (Robot Operating System), Gazebo, and Rviz

Technical Skills

Languages: Python, C/C++, SQL (MySQL), JavaScript, HTML/CSS
Frameworks & Libraries: Tailwind CSS, Bootstrap, ROS
Developer Tools: Git, GitHub, Firebase, Vercel, Render, Aiven Cloud, Gazebo, Rviz
Creative Tools: Video editing, YouTube channel management
